Frontend Developer with experience building scalable web applications using Next.js, React, and TypeScript. Skilled in performance optimization, responsive UI development, API integration, and delivering secure user-facing features.

EXPERIENCE

Axis Asset Management Company

Frontend Developer

07/2024 – Present

Mumbai, Maharashtra

- **Delivered 6+ campaign pages** and a Next.js login popup, improving accessibility and boosting organic traffic by 15%.
- **Strengthened platform security** with asymmetric encryption and DOMPurify, cutting post-QA bugs by more than 75%.
- **Implemented Google Analytics event tracking** across 7 core transaction modules, strengthening data insights and enabling precise monitoring of user engagement.
- **Awarded the Axis AMC ACE Team Award** for SERP optimization; utilized Next.js SSR and enhanced meta elements to significantly boost organic visibility, keyword rankings, and CTR.
- **Optimized application load times** by 25% and swiftly resolved live production bugs with zero downtime.
- **Leveraged AI tools such as Amazon Q** to streamline the implementation workflow and ship UI changes faster, reducing delivery time by 50%.
- **Gained hands-on experience with micro-frontend architecture**, building decoupled components for seamless cross-application integration.
- **Partnered with cross-functional teams** (Product, InfoSec, QA) to resolve dependencies and ensure 100% stable, secure deployments.

Xemi Private Limited

Data Analyst Intern

06/2023 – 07/2023

Mumbai, Maharashtra

- Developed custom scripts to automate web workflows, extracting and processing data to reduce manual overhead by 80%.
- Structured and verified large datasets into JSON format across 250+ files, ensuring high data integrity for seamless software integration.

EDUCATION

Veermata Jijabai Technological Institute (VJTI)

Bachelor of Technology - Information Technology - CGPA: 7.68/10

02/2021 – 07/2024

Mumbai, India

PROJECTS

Mi-Blog-Van | MERN Stack

04/2023

- * Developed a full-stack, interactive public blog application utilizing React, Node.js, Express.js, and MongoDB.
- * Engineered secure RESTful APIs and dynamic UI components to enable seamless content creation, reading, and deletion by community contributors.

Anonymous Secret Sharing Website | MERN Stack

04/2023

- * Architected an anonymous secret-sharing web application using Node.js, Express.js, and MongoDB.
- * Implemented robust session management via cookies and a dual authentication system featuring Google OAuth and Local OAuth.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), HTML5, CSS3

Frontend Frameworks & Libraries: React.js, Next.js, Redux, Tailwind CSS

Architecture & Web Tech: Micro-frontends, Web Performance Optimization (Core Web Vitals), Server-Side Rendering (SSR), REST APIs

Developer Tools & CI/CD: Google Analytics, Git, Azure, Jenkins

AI Developer Tools: Amazon Q, Copilot, Perplexity

ACHIEVEMENTS

- Won a Team Award at the Axis Mutual Fund ACE Awards for SERP Optimization Project.
